*'Learning Together Across the World'*

9<sup>th</sup> November 2023

Dear Parent/Carer,

## Re: Bertha Trip to Global Generation's Story Garden

As part of the Bertha Earth programme that your child has just started, we are excited to have the opportunity to take them to the Story Garden in Kings Cross. The aim of the Nature Connect day is to get students feeling more connected to nature and create a sense of curiosity for the environment around them. Throughout the day they will be taking part in activities which allow them reflect on their current relationship with nature and ways we can further this in our daily lives. We know these things are really key to their holistic development, and will support their learning inside and outside of the classroom.

On the **Wednesday 15<sup>th</sup> November**, students will come to school normal time and then we will be leaving school at 9:00. We will be travelling on the Northern Line from Hendon Central to Kings Cross and walking 10 mins to the Story Garden. The whole day will be spent there, before leaving at 14:30 and returning to school by the end of the school day at 3:10. (there may be some delays with transport but the aim is to get back by 3:10pm). **The trip is completely free of charge and lunch will be provided on the day. Please could slips be returned to myself ASAP, but at least by Tuesday 14<sup>th</sup> November.**

Students will be expected to come into school in **non-school uniform**, instead wearing weather appropriate clothing. As the nature connect day is all outside and winter is fast approaching, it's really important your students come ready with clothes suitable for the outdoors. Please ask your child to come in warm clothes they don't mind getting muddy, with suitable footwear (ideally wellies or old trainers if not), and to bring a waterproof coat plus an extra warm layer. Our motto is "there's no such thing as bad weather, just bad clothing!"

Nature Connect Days are a fantastic opportunity for your child to connect with other people in their year group, the connections they build at this stage in Year 7 will be really beneficial to how settled they feel at Hendon.

The majority of Ambassadors are attending, and so if they weren't to come, they'd miss out on a key experience of the programme, and may find it harder when the workshops begin.

By applying for the programme, your child has expressed an interest in taking part in the Nature Connect Day, and this is a unique experience only available to 30 young people from the year group.

Students will have the opportunity to catch up on any work missed in other lessons

If you have any questions, please feel free to email me.  
Kind regards,

Mr B Sair  
Bertha Earth School Facilitator
